

# JOIN US FOR A SEMINAR CO-HOSTED BY NEW YORK UNIVERSITY SCHOOL OF LAW AND KCAB INTERNATIONAL

## INHERENT POWERS OF ARBITRATORS

This seminar will explore a fundamental question that commonly arises during international arbitrations: what are the boundaries of the powers of arbitrators? Are these powers limited to those explicitly provided for in the relevant laws or rules, or should there be some margin of flexibility, so that arbitrators may invoke powers which can be deduced from the characteristics and goals of their function? Join us for a thought-provoking seminar together with a distinguished panel of arbitration experts.

**Date** Monday, 10 June 2019 (3:20-6:00 pm)

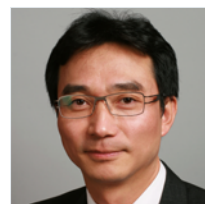

**Venue** 18F Trade Tower, Seoul, Seoul IDRC
